

RAELY IVAN D. REYES

Frontend Developer | UI/UX Designer

+63-976-173-1036 | raeliyvandreyes@gmail.com | Mexico, Pampanga, Philippines

PROFESSIONAL SUMMARY

Detail-oriented IT student and Frontend Developer with hands-on experience building web and mobile applications, AI-integrated systems, and SaaS platforms. Skilled in translating complex requirements into clean, user-friendly interfaces using modern frameworks and design tools. Proven ability to contribute across the full development cycle from UI/UX design through deployment.

TECHNICAL SKILLS

Frontend Development: HTML5, CSS3, JavaScript, React.js

Backend & Infrastructure: PHP, MySQL, Firebase, Cloud Run, REST APIs

UI/UX & Design: Figma, Canva

Version Control: Git, GitHub

RELEVANT EXPERIENCE

Frontend Developer / UI UX Intern

2026

NOLA Web Solutions

- Developed and optimized the frontend UI/UX of NOLA SMS Pro, a GoHighLevel-integrated SMS automation platform tailored for Philippine mobile networks.
- Built responsive dashboards, workflow actions, and SMS configuration systems that improved usability, streamlined automation, and simplified onboarding for agencies and businesses.
- Collaborated with backend developers to integrate local SMS gateways, optimize workflow connectivity, and improve message delivery reliability across Philippine telecom providers.

Mobile App Developer

2025

SafeHito – AI-Based Fungal Detection & Diagnosis System

- Developed a mobile application integrated with an AI-powered Raspberry Pi camera scanning system for detecting fungal infections in African catfish aquaculture.
- Implemented real-time water quality monitoring features, including environmental tracking tools to support aquaculture management and fish health assessment.
- Designed and developed an intuitive UI/UX diagnostic interface that improved accessibility and ease of use for non-technical users and fish farm operators.

Graphic Designer

2024 – 2025

Bureau of Information Technology Specialists (BITS)

- Designed social media content, publication materials, and event graphics to support organizational branding and communication initiatives.
- Maintained visual consistency across digital assets using Canva and other design tools while aligning with organizational standards and campaigns.
- Collaborated with the communications team to deliver high-quality creative materials under tight deadlines for internal and external events.

EDUCATION

Bachelor of Science in Information Technology

2022 – Present

Pampanga State University
