

RAELY IVAN D. REYES

Full-Stack Developer

+63-976-173-1036 | raeliyvandreyes@gmail.com | Mexico, Pampanga, Philippines
GitHub: github.com/raezxcv | Portfolio: raeliyvanreyes.vercel.app

PROFESSIONAL SUMMARY

Full-Stack Developer with experience developing SaaS platforms, automation systems, responsive web applications, and AI-assisted mobile solutions. Skilled in React.js, REST API integration, database design, and frontend development, with a strong understanding of UI/UX principles and scalable application workflows.

RELEVANT EXPERIENCE

Full-Stack Developer & UI/UX Intern

February 2026 – Present

NOLA Web Solutions

- Developed and improved the frontend UI/UX of NOLA SMS Pro, a GoHighLevel-integrated SMS automation platform supporting Philippine SMS delivery, workflow automation, branded Sender ID messaging, and local SMS gateway integration.
- Built responsive dashboards, workflow actions, and SMS configuration modules that enabled users to automate Philippine SMS messaging through GoHighLevel workflows, simplifying setup and reducing reliance on high-cost international SMS providers.
- Collaborated on backend integration, database design, REST API connections, and local SMS gateway implementation to improve message delivery reliability, optimize workflow performance, and support cost-efficient SMS automation.

Mobile App Developer

June 2025 – December 2025

SafeHito – AI-Based Fungal Detection & Diagnosis System (Capstone Project)

- Developed a mobile application integrated with an AI-powered Raspberry Pi image scanning system for detecting fungal infections in African catfish aquaculture environments.
- Implemented real-time water quality monitoring and environmental tracking features that supported fish health assessment, aquaculture management, and automated diagnostic monitoring workflows.
- Designed and developed an intuitive diagnostic UI/UX interface for non-technical users and fish farm operators while contributing to database structure planning, API integration, and overall system architecture.

Graphic Designer

2024 – 2025

Bureau of Information Technology Specialists (BITS)

- Designed social media content, publication materials, and event graphics supporting organizational branding, campus initiatives, and digital communication campaigns.
- Maintained visual consistency across digital assets using Canva and other design tools while aligning layouts, branding elements, and campaign standards across multiple projects.
- Collaborated with team members to deliver high-quality creative materials under tight deadlines for internal and external events, improving content presentation and audience engagement.

EDUCATION

Bachelor of Science in Information Technology

2022 – Present

Pampanga State University - Candaba Campus

- President's Lister – Top 8 (2nd Sem A.Y. 2023-2024), Top 14 (1st Sem A.Y. 2024-2025), Top 9 (2nd Sem A.Y. 2024-2025)

TECHNICAL SKILLS

Frontend: React.js, JavaScript, HTML5, CSS3, Tailwind CSS

Backend: PHP, REST APIs

Database & Cloud: MySQL, Firebase, Google Cloud Run

Tools & Design: Git, GitHub Figma, Canva
